

Subject: I have inside information on Mayan Princess.

Message:

Carl,

I have inside information on Mayan Princess.

This yacht, that reportedly cost the owner in excess of \$350 million to build and sent the builder into bankruptcy, can be purchased for somewhere near less than 1/2 the cost.

This should not to be confused with a monetary "have to sell" but a situation where the owner has a political problem within his business and social community where ownership of an asset of this lavish style is not well received. The owner wants the boat sold before the end of the summer and will go to almost any length to achieve his goal, including cash plus a trade which could include jets, houses, other yachts (Smaller) stock, bonds etc.

Mayan Princess is in fact built with "only the best" in mind and since the owner is one of the most experienced yachtsmen on the planet, her layout defies criticism from the top designers in the world. Truly a gem among super-yachts and can be purchased now at a price which will make this one of the greatest buys in yachts in modern times.

Carl, you are the best in the world at securing deals with extreme value. Here is an example of just that, perfection in luxury at a great value because of a particular circumstance.

Call me at 954 \*\*\*-\*\*\*\* as soon as possible and let's discuss this acquisition in detail.

I look forward to your call,

{signature}
