How it Works

1. Provide basic application information
2. Post your customized loan listing
3. Watch private investors invest in your loan
4. Get your money

Your basic application information is where you choose a loan amount from \$1,000 to \$35,000, and the purpose of the loan.

Tip: Registering and applying for a Peer 2 Peer loan is quick and simple. Before you get started make sure you have your social security number, and bank account and routing number available.

Once your application is complete and submitted we verify your identity, review the required documents you included in your application, and if approved we make your listing available to our private investors. Our private lenders may ask for additional documents such as proving employment, and other sources of income.

Tip: You can help improve the Verification Stage to get your loan application completed sooner—and your money faster—by submitting required documents promptly when requested.

Do You Qualify?

Peer to peer loans are available to people with a good to excellent credit (620+ FICO score). Other factors may be considered including debt-to-income ratio (i.e. less than 35%), income, employment status, and timely payments on existing loans.

If you don't meet peer to peer lending requirements for whatever reason don't despair! Other lenders are available **if you're FICO score is less than 620**; often at much better rates and terms than your current credit card and other loans.
