Have you ever experienced a cosmic shift? All of a sudden life took a new and unexpected direction.

But Spirit tells you your life will never be the same again.

So please open a welcoming space, because whatever it is you are dealing with right now... a health problem, relationship issues, or you're feeling spiritually stuck...

Be honest with yourself... yoga, meditation, prayer, supplements, crystals, energy medicine, and even conventional therapies... you've tried them all...

Well, hang on because you're about to discover an amazing secret... a treasure that had been lost for over 3,000 years.

You'll also discover how by combining this new choice in natural healing with the spiritual practice you enjoy now...

You can:

- get unstuck from negative cycles
- bring your body's systems back into harmony
- foster ongoing peace in your relationships
- get a good nights sleep
- strengthen or even awaken your connection with the Divine.

And you can do it nearly anytime, anywhere... in 22 minutes or less.

That's right – this method takes very little time, and can help you deal with health problems or emotional issues sometimes even before they start.

Already, this technique I'm telling you about right now has helped thousands of people...

In fact;

- Denise says she stopped 15 years of antidepressant use after a few short days.

I have hundreds of stories from people just like you who tell of soul healing that touches mind, body and emotions.

So if you're watching this video it tells me you may have reached a point in your journey... you feel the issues you're dealing with are not going away no matter what you've tried... maybe it feels like it's taken on a life of it's own... or taken over.

I don't want you going one more day with that hopeless feeling. *You are not alone.*

It means a great deal to me that you know I've been there myself. *There is a way out.* And for the time and sincerity you've invested... know that life is an extraordinary design of thought and feeling by the Divine.

So what is this 3,000 year old secret you're about to discover that gave new life to Michael's mom, and helped so many people get their life back?

What if I told you that you could have the power to heal yourself and your loved ones with music...?

Now, I'm not talking about the music you hear on the radio everyday. But more about that in a minute...

You are in the right place at the right time to make changes in your life. So stay with me and I'll tell you how this all happened. And what this could mean for you.

My friend is Michael Tyrrell. And he's a musician.

Michael and his friend Don walked into a coffee shop on Ben Yehuda Street in Jerusalem a few years ago. Don was there to meet an old friend.

The way he tells it, they sat down and there was a piano player in the corner of the room.

The piano player noticed them when they walked in. On his break he came over to their table, and introduced himself as David. Then he said he had something for Michael.

David went out to his car and returned to the table. He said his life's work was studying the ancient psalms of King David. An ancient Hebraic form of music.

He handed Michael manuscript copies of several of King David's psalms. "These are for you... Yeshua said you would know what to do with them."

Well now... that was a little strange... Michael said that as he stared at the manuscripts, they seemed hauntingly familiar. Suddenly, and like the clouds parting he said it became perfectly clear.

This was the source of ALL the early first century Christian music. As a side note, they didn't call themselves "Christians" back then. They referred to their meetings and gatherings as "The Way".

The music would later become known as **Gregorian chant**. Everything was there... monophonic tonality represented as interval... not notation... but **ancient Solfege!**

Now, hang on there Thomas. What the heck is ancient Solfege? Stay with me because I'll explain it in a minute.

Are you following me here? ***This is so big it could change everything for you.*** It has for me and for a lot of other people too.

When Michael looked at David's transcriptions, he noticed he had adapted the manuscripts to play in modern keys. Based on A440 tuning. I suppose at the time it made sense...

Michael hugged David and thanked him for his priceless gift. Little did he know he was walking out with the key to this project. And the reason you're watching this video right now.

Back home in Florida, he immediately started playing David's adaptations of the psalms. They were beautiful. But as music they didn't do anything for him.

Now, remember when I said the universe conspires to help us? All of a sudden... the light came on! Michael realized the original manuscript was written for different tuning...

And he knew from research...

King David tuned his instruments higher than what we're used to in our modern musical tuning system.

So he decided to experiment. He found reference to King David in his Bible on Page 222.

To this day he can't say if this was Divine intervention or not, but something told him to double the page number... and re-tune his guitar...

So he grabbed his guitar and tuned it to 444 hertz (Hz).

That's when he realized...

"I think I just discovered the Key of David"

If you're not musically inclined: hertz measures sound as 1 vibration cycle per second... these are frequencies...

This means each tone vibrates 444 times per second.

Ever get that feeling when something seems too good to be true? Michael checked around to see if anyone else had figured this out.

Of course they had... these frequencies are just a click away on YouTube and plenty of other websites.

But they're not something you'd enjoy listening to for very long. Most of what he found was an hour or more of one long, boring tone made with a synthesizer!

Stay tuned... there's more!

So what's the ancient Solfege we mentioned before? The original Solfeggio frequencies were sung in Gregorian chants during church ceremonies.

When sung in harmony, the chants were thought to impart spiritual blessing during religious masses.

Reports tell of these sacred tones that when sung in Latin, had the power to penetrate deep into the subconscious and promote healing and transformation.ⁱ

The Solfeggio frequencies contain six pure tones which once made up the ancient musical scale. Until, it is reported, they were altered by the Catholic Church and Pope Gregory 1.

Since then...

No one has settled on a "universal" tuning guide.

The scale we use today is *out of sync* with the original Solfeggio tones. Our scale is toned "down".

Our modern music is tuned to the 440 Hz frequency. This was changed from 417 Hz around 1914. One of the biggest promoters of the scale we use today in modern music was none other than Joseph Goebbels... Hitler's Propaganda Minister.

"In essence, nearly all the music we hear today on the radio and that is sold in stores, whether rock, jazz, soul or classical, is atonal and counter productive in comparison to the amazing transformational powers of the great Solfeggio tones.

Our modern music is literally at dis-ease with the human body.

Each of the six Solfeggio frequencies correspond to, not only a note on the tonal scale, but to a cycle per second hz frequency number, and to a specific color, and, ultimately, to a particular chakra in the body."ⁱⁱ

Deepak Chopra once said, *"Quantum physics has found that there is no empty space in the human cell, but it is a teeming, electric-magnetic field of possibility or potential."*

I have found this to be true...

Her pancreatic tumor disappeared

Michael's mom was diagnosed with pancreatic cancer in 2005. They said she'd need a 4-hour surgery to remove the tumor.

If you or someone you love has ever had to deal with something like this...

Of course he and his wife made a mad-dash to be there with her. And Michael packed his guitar with their bags.

The night before she was to go to the operating room, Michael asked his mom if she would like him to play for her.

She readily agreed.

He tuned his guitar and began playing in the 741 Hz frequency... Very gently he placed the headstock of the instrument on her side... close to her pancreas.

As his mom recalls,

“Michael felt like the Lord would have him play his guitar over me and I was more than willing.

He said for me to just close my eyes – and I did...

...all I remember is when I closed my eyes, probably 2 or 3 minutes after my eyes were closed I could see this... this thing... this black, round looking thing with tentacles and I just kept my eyes closed and as he played and played, the mass that I assumed was what they’d seen on their diagnostic test in me, is what I was seeing in my mind’s eye.

It began to fade.

And it got less and less dark. Less and less and all of a sudden – everything went green. And it was the brightest green I ever saw in my life. And I’m healed.”

When it came time for the surgery, we were told they’d be in for about 4 hours.

After 45 minutes the surgeon came rushing in – “No cancer! No cancer! – Everything is clear!”

Isn’t that unbelievable?

10 years later and his mom is still cancer-free.

So, what exactly are these frequencies?

They’re called “**Wholetones – The Healing Frequency Music Project**”. And I’d like to share those with you now...

The sacred frequencies are 396, 417, 528, 639, 741, and 852.

These numbers represent individual sounds and have some unique characteristics.

Watch this:

$$396 = 3+9+6 = 18 = 1+8 = (9)$$

$$417 = 4+1+7 = 12 = 1+2 = (3)$$

$$528 = 5+2+8 = 15 = 1+5 = (6)$$

$$639 = 6+3+9 = 18 = 1+8 = (9)$$

$$741 = 7+4+1 = 12 = 1+2 = (3)$$

$$852 = 8+5+2 = 15 = 1+5 = (6)$$

Now add the numbers in parenthesis:

$$9+3+6+9+3+6 = 36 = 3+6 = (9)$$

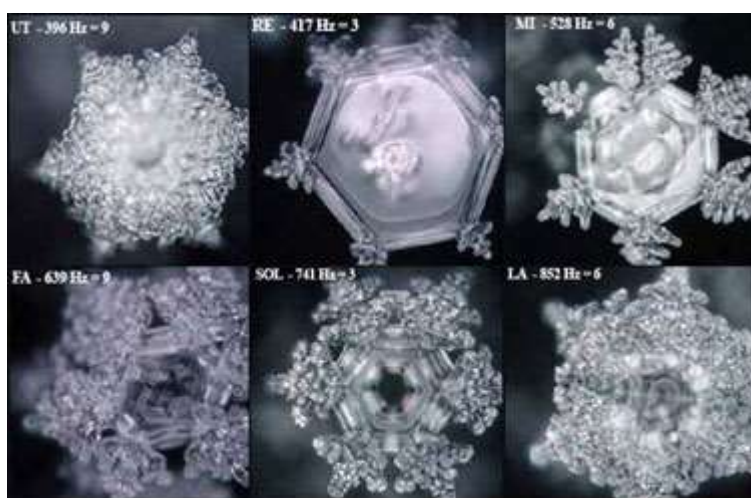

“If you only knew the magnificence of the 3, 6 and 9, then you would have a key to the universe.” ~ Nicola Tesla

These numbers hold the secrets of the ages. And are your key to the mysteries of the universe.

And what the Solfeggio tones do to the human body is nothing short of miraculous. Let me explain...

The human body is about 60% water. The brain and heart is 73% water, lungs 83% water, muscles and kidneys 79%, and even our bones are 31% water.ⁱⁱⁱ

Japanese researcher Dr. Masaru Emoto discovered and revealed some interesting characteristics of water. Water molecules exposed to sounds of love and harmony form beautiful patterns – like crystal snowflakes.^{iv}

Our bodies (being mostly water) are like musical instruments, and can be in tune or out of tune.

When we are in tune we feel great. As you play these Tones you surround your energy field with love, the body adjusts and comes into balance.

The Six Solfeggio Frequencies are the same tones used by the ancients to heal, to experience joy, and will energize your connection with the Divine.

396 Hz – The Open Door is the one I like to refer to as the Opening frequency. It's your doorway to the unconscious world and reveals a space to receive directly from God.

As fear and guilt are lifted you no longer feel compelled to defend. Feelings of shame give way to the spiritual truth of your Divine nature.

When you think of 386 – think of a deep red or garnet. The Talmud records the only light on Noah's ark was provided by a large Garnet.^{vi}

Red is the color associated with the **Root Chakra**.^{vii} Old Noah sure needed some grounding...

People report it helps them with added brain power and clear thinking.

386 also assists in optimal liver and kidney function. Stronger bones and optimized blood can help you live a longer and better quality of life. You're finally able to keep up with the kids and grandchildren!

417 Hz – Desert Sojourn: If you're ready to step out of an ADD-addicted world this frequency is for you.

It provides the tools to get relief from negative cycles... the kind that lead to procrastination, eating junk food on the run, and self-medicating with drugs or alcohol.

Abundance is your birthright. Interrupt negative cycles and you'll come alive to create harmony and balance in your day.

Fellow travelers tell of a positive effect on the large intestine; their gut feels better because of better enzyme production and digestion. Metabolism is stabilized and the gallbladder works better to break down fat.

Headaches caused by diet are a thing of the past. Lower back stiffness melts away. Impotence and frigidity give way to creating harmony in your sex life.^{viii}

The ancients associated 417 with the **Sacral Chakra** and identify it as a dark orange color.

528 Hz we call Transformation. This is one interesting frequency. 528 can balance your **Heart Chakra** increasing compassion, love of yourself and others, and relieve muscle tension especially between the shoulders.

Lightworkers say they experience fewer weight and circulation problems. The immune system is stronger making you less vulnerable to disease.

You may have heard of Canadian researcher John Hutchinson and partner Nancy Lazaryan. They cleared the waters of Perdido Bay in Lillian, Alabama after the Gulf Oil Spill with 528. *They saw a return of marine life in just one day.*^{ix}

Is it any wonder 528 Hz has been named the Miracle Frequency or Transformation Tone? Her color is a bright green.

639 Hz – is called The Bridge. Have you ever found yourself at odds with a friend or loved one? No matter what you said, there is still a chasm of indifference between you.

We call this *The Bridge* because this frequency helps us live from a place of forgiveness. It supports our sense of timing and rhythm, and helps us live creatively.

It allows us to easily and gracefully express our deepest feelings and emotions. By tapping into the ancient wisdom we are born with, we control ourselves knowing we can provide harmony in our relationships.

Imagine experiencing peace as the landscape of your daily life.

639 supports the throat and neck, thyroid gland, and is said to prevent problems with the mouth, teeth and ears.

This is the **Throat Chakra** or the Sanskrit name: Vissudha (meaning *purification*).^x Her color is a beautiful light blue.

741 Hz – is the Great Awakening.

This tone speaks to your energies of spirit and light. It assists in the purification of negative tendencies and the elimination of selfish attitudes.

Fellow travelers know this as the frequency of the **pineal gland**. Our **Third Eye**, it transcends the body and allows us to focus on Spirit.

Through the power of the **Sixth Chakra**, you can receive guidance, channel, and tune into your Higher Self.^{xi}

When this chakra is balanced and open you are your own master with *no fear of death*, are not attached to material things, and develop your "Sixth Sense" of intuition.

You can improve your memory, are perceptive, you're able to visualize, can think symbolically, and are able to remember your dreams.

741 affects and helps the brain, nervous system, eyes and vision, sinuses, the face, the pineal and pituitary glands and your lymphatic and endocrine system.

The Sanskrit name of the Sixth Chakra is "Ajna" or to perceive. The Awakening color is indigo.

852 Hz can only be called "**The Majestic**" – this is a celebration of the Divine.

Have you ever felt complete and pure joy? It could be a breathtaking view that stopped the world and left you in awe. It's a moment that you've never forgotten.

That was your direct connection with God. You were left speechless. It's impossible to describe what you saw and felt in that moment. There are no words.

852 speaks to that. *It illuminates the rays of the Divine in you.*

The frequency 852 is a symphony for the **Crown Chakra**. It's Majestic. It is the center of spirituality, enlightenment, dynamic thought and energy.

852 Hz speaks to our connection with our life's true purpose, a mature relationship between the ego and higher self, and our relationship with God and spirit.

The Tone 852 also affects the body we wear in this earthly plane. When it's out of balance or closed we experience energetic disorders, depression with no obvious source, migraines, amnesia, chronic exhaustion not linked to a physical disorder, sensitivity to light, sound and our environment.

This Tone can help open you to your connection with the Divine, with life, your relationships, and an overall sense of pure and clean wellbeing.

Wholetones – The Healing Frequency Music Project

Each Wholetones song is 22:22 minutes of pure, beautiful music professionally recorded by some of the most gifted musicians I know. Michael says he feels eternal gratitude that he gets to make music with them.

Each Tone is a song as the corresponding frequency as its base. Like a Golden Thread it underlies each musical score.

Now, would you like to see just how powerful the healing properties of these frequencies are?

Good! Because I'm going to show you some of the emails we've received from the thousands of blessed souls who have already received them.

I've already shared about Michael's mom and how her pancreatic cancer vanished, never to return. It's been 10 years since that diagnosis.

Listen to these amazing stories...

"I have been overcoming generational physical, mental and emotional things the past few years... I felt really poorly at the end of last week, as though I was in a dangerous place... I downloaded the frequencies. After soaking in them for 2 nights in my sleep, I feel like a different person, the one I was created to be." ~ Laurie H.

"I started playing Wholetones... in the background while I worked. I noticed an immediate change in attention span, focus and clarity and an increased level of motivation to tackle the day's tasks. Not only was I more motivated, but the work I was doing seemed easier and clearer and I found myself less drawn to the same distractions from before." ~ Jon H.

"At work several days ago three co-workers got into a heated discussion. All 3 of them were yelling.

I got out my Wholetones CD and put in 639: The Bridge, which is supposed to foster forgiveness and peace in relationships, and played it over my desk speakers. Within 2 minutes, these 3 gentlemen who previously could not come to ANY resolution were talking in calm, pleasant tones, and the conversation wrapped up with a plan in place and no hard feelings. I was amazed." ~ Tasha F.

"For the first time in months, I slept the entire night through..." ~ Susan M.

"What I appreciate most is this feeling of joy and inner peace." ~ Karen J.

"Wholetones played to my geranium... and the plant exploded with 12 blossoms all at once!" ~ Kathrine B.

"I feel so at peace and connected to God when I hear it... I feel Him working deeply to clean out the junk and working to restore me." ~ Michelle B.

There are hundreds of testimonials like these. But I think you get the idea of the transformative power people experience when using Wholetones.

So just imagine this: No matter what path you've been called to, these ancient healing Tones can enhance your experience on this journey home.

Even if you THINK you've tried everything!

Now it's your time to explore this world of energy and spirit. Seize this opportunity that Spirit offers you.

**Align yourself with the frequencies provided by the ancients.
Heal the deepest part of your soul.**

Wholetones – The Healing Frequency Music Project is the direct result of a “chance” encounter with a musician on Ben Yehuda Street in Jerusalem.

Years of dedicated study, digging through forgotten and sometimes hidden research to find what REALLY works in the “real” world.

This passionate research has uncovered 7 healing tones previously hidden from us for 3,000 years.

Yet from this moment forward, you have access to the same methods the shepherd boy David used to pull King Saul out of his deepest depressions.

You don't have to stop whatever practices you currently enjoy. In fact, you can enhance and bring fresh life to your yoga practice, meditation time, prayer, Reiki, energy therapy, massage, ayurvedic medicine, acupuncture, aromatherapy, herbal remedies, exercise, and yes – even music therapy.

You see, music therapy is hardly unique. Even traditional and mainstream hospitals and clinics have found using music for healing as an alternative to standard Western methods of talk therapy, drugs and surgery.^{xii}

“Nothing activates the brain so extensively as music.” ~ Dr. Oliver Sacs,
Professor Neurology & Psychiatry, Columbia University^{xiii}

The amazing thing is the music they're using is IN THE WRONG KEY!

Imagine what would happen if the Certification Board for Music Therapists embraced the music of the ancients.^{xiv}

Now, you may be thinking that with all the unique and powerful results Wholetones produces, the cost of the seven 22:22 minute CD's and "**Wholetones – The Sound of Healing**" book is going to reach into the heavens...

And in all honesty... it really should be. When you consider the costs many of our fellow travelers pay for years worth of therapy, prescription drugs, surgery, and other false hopes that often don't deliver the relief promised... the real thing should cost MORE, not less.

Yet the last thing we want is to slow down your journey based on price... or keep the real results Wholetones offers you out of reach for even ONE truly deserving soul who needs it..

The truth is Michael has had a long and abundant career as a professional musician, author and speaker. He says he's honestly never needed for anything that the universe so graciously provides every single day.

Instead, we want to make Wholetones available because we know so many can use this healing music.

**Some listeners have reported almost automatic relief...
one in as little as 22 minutes!**

Oh, and there's one more thing that's not so much as a warning, as a caution I'd like to pass on to you today:

No matter where you are on your spiritual journey... it could be a lifetime... or you're just getting started... many of us experience what can only be called "A Dark Night of the Soul". The worst thing you can possibly do... is do nothing.

Listen: You've already heard some of the testimonials. I promise you they are all good news. But some of the darker experiences before people received and started using Wholetones... Well, they're not really to be shared.

Just know that most of us on this spiritual path have a hard time at one time or another. Sometimes it can get really, really dark – before the Light breaks through.

Even scarier, is some of the latest research that links untreated, long-term illness and anxiety can lead to things like dementia and even Alzheimer's.^{xv}

With headlines warning us of international terrorism, global warming, economic slowdown, an epidemic of ADHD^{xvi} and body hatred^{xvii}, obesity and diabetes^{xviii}...

And maybe worst of them all, we're self-medicating^{xix} and giving our children Ritalin^{xx}. How are we affecting the brains and personalities of our children... and maybe even for generations to come?

Yes, it's true... No matter how long you've lived in the darkest shadows, until today **it's been absolutely no fault of your own**. In fact, you've done

David Tomen | Copywriter | david@swiftcurrentmarketing.com | cell: 954-614-1663

your best to get the help you needed. And listened to many well-meaning teachers and gurus.

However, today marks your day to take responsibility... for your health and spiritual well-being AND the health and happiness of your loved ones who often experience the pain right along with you.

They likely feel as helpless and powerless as you do.

Look: In no way do I want you to feel like I'm pressuring you here... that's not what this is about.

Yet as you watch this right now, you're at a crossroads that can affect your life in almost every way imaginable. So if you think about it, you really have THREE options.

Option One is... to do nothing and let this video end, leave this site and do nothing – and go on your long and winding road to nowhere.

If you're honest with yourself and you've come this far into this video, we know what you're doing right now just isn't working for you. So let's scratch Option One...

Option Two is... take what you learned in this video about music therapy, and frequencies, and try to figure it out on your own.

You can try this, but from my own experience I know trying to discern what works and what doesn't is not easy... I don't know about you – when Michael had the keys to these ancient healing tones – he sat on them for years before he was led to the right answer – and the right frequency.

It made a world of difference tuning his guitar just 4 cents different than what we hear on the radio today. That's just extra stress that I don't want for you...

And there's Option Three... which is simply to do what thousands of others have done before you. It's risk-free, so try the proven Wholetones – The Healing Frequency Music Project right now.

I know you'll make the right decision, and Michael and I look forward to meeting you.

FREQUENTLY ASKED QUESTIONS (FAQ):

So, if you're still here, I bet you still have some questions... So let's talk about some of the most common questions people ask us. Here are some answers to help you out...

"Which Wholetones songs help you sleep the best? Wondering if I should play them all, or just certain songs for sleep?"

We usually recommend, 396Hz (Open Door) for sound sleep. Simply leave it on repeat to play all night long. Volume should be left at a comfortable level, no need to make it loud. My wife and I do this every night and never make it past the 5 minute mark before, Zzzzzzz!

"Are these songs available for sale on iTunes?"

The only place you can currently buy Wholetones is on Wholetones.com. After you buy, you can download the songs to your computer and then import them into your iTunes account, so you can play them on your mobile devices. We are working to bring Wholetones to the iOS platform soon.

"How long is each CD? Are there more than 1 song on each CD?"

Each CD is 22 minutes and 22 seconds long, and contains one song. There are 7 CDs and 7 songs that total over 2 1/2 hours of healing music.

"I've heard there are other healing frequencies, like 174Hz, 285Hz, and 963Hz. Will you be creating music for these frequencies as well, or just sticking with the 7 you have now?"

Great question! Our first project here is to bring the 7 healing frequencies to the world, but there has been great demand for us to produce more... so, we're working on it! We will keep you posted on new and exciting projects via email and on our Facebook page, so please stay tuned and be sure to get our first 7 songs today!

"What about the other healing frequencies I see on YouTube, or other artists advertising?"

You can try them if you like. They simply run a loop of a single sound in the corresponding frequency for an hour or more. It's enough to drive anyone crazy. We thought that a more enjoyable, powerful listening experience would come from hearing these healing frequencies in a warm, enveloping song.

“Do I need to use headphones or high quality sound equipment to get the maximum benefit out of listening to Wholetones?”

Wholetones works on a cellular level, and affects your body whether you listen on headphones or not, use high end stereo equipment, or simply listen on your laptop. Obviously, the better the equipment, the better the music "sounds;" however, regardless of your listening environment, Wholetones works in the body!

Headphones are recommended for those who have sustained a brain injury or those who are deaf as they can still "feel" the vibration of the speakers in the headphones themselves, or if you are an audiophile who enjoys critical listening and spatial separation.

Another thing that is important to know about Wholetones is...volume is a non issue, whether you play Wholetones loud or at a low volume...it works the same! There is also no need to concentrate on the music. You can just play it in your home, office or car and continue with your daily activities.

“What bitrate is the digital music download encoded? What file formats do you provide - both WAV an MP3? Is there a loss in frequencies compared to the CDs?”

The Wholetones CD sets are WAV files delivered at: 44.1k 16-bit WAV files at ~750MB (0.7GB). The Wholetones MP3 files online are compressed and delivered at: 44.1k VBR 320 kbps MP3 files at 376.60 MB (0.3GB). In an upcoming product, we are outputting to DVD/BluRay at the following resolution: 48K 24-bit WAV files at 2,531.60 MB (2.5GB).

“Is this real music or just 2 ½ hours put together by a synthesizer and some electronic equipment?”

This is real, organic music! Michael and his band traveled to a professional studio in Dallas, Texas to record Wholetones. They recorded it live. The instruments they used were primarily acoustic. Michael's electric guitar was

played through a tube amplifier and everywhere it was possible, he applied analog technology. Even the underlying frequency each song is built on was made using crystal glasses filled with just the right amount of water to get the exact tone they wanted!

“I am deaf and cannot hear the tones at all. Will the tones still help me?”

Since Wholetones works on a cellular level, it affects your body whether you can actually hear it or not.

“Is this Christian music? Will it go against what I believe and practice everyday?”

No, this music is universal. It’s all instrumental and unless the only thing you like listening to is heavy metal ☺ I think you’ll enjoy Wholetones no matter what your faith, or what you believe or practice.

“Can children use Wholetones”

Yes – we have reports from many of our customers that they use Wholetones to help their children sleep. And some have even found it helpful to calm those who are autistic or are ADHD. It’s been shown to help bring calm in the most chaotic environments!

What if I get Wholetones – The Healing Frequency Music Project and it doesn’t work for me?

Honestly, it’s practically illegal to call any “natural” treatment a “cure” these days. We’ve never had a report that a client who actually used Wholetones did not experience some type of benefit. Some clients even use it on their plants! However, again and if for any reason you are anything less than absolutely thrilled with Wholetones – The Healing Frequency Music Project, simply send an email to the email address provided, return the physical copy if you have one, and we’ll send you a fast and courteous refund of every penny you paid with no hassles or grief. Period!

From the roar of a volcano, the crash of a storm-tossed sea, the sound of your voice, a baby's cry... even down to the sub-atomic level of the particles that make up your body. Everything... even space... vibrates.

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration." ~ Nikola Tesla
